

PUBLONS

ENGADIR PUBLICACIÓNS DA WEB OF SCIENCE

Pódense engadir publicacións a Publons da Web of Science de dúas formas:

1. Importándoas desde Publons.
2. Á inversa, **buscando na Web of Science** as referencias dos traballos e exportalas a Publons (**Reclamación en Publons**)

1. Para engadir publicacións da WOS dende Publons acceda a Publons e no menú lateral prema no enlace **My Records> Publications** e despois seleccione “Import publications”

The screenshot shows the Publons user interface. On the left is a navigation menu with categories: 'Me' (Dashboard summary, Public profile, Export verified record), 'My records' (Publications, Peer reviews, Editor records, Awards), and 'Activity' (Notifications, Pending records). The 'Publications' item under 'My records' is highlighted with a red box. On the right, a blue banner contains a tip: 'Tip: Show more of your research impact' with a close button (X) and a button labeled 'IMPORT YOUR PUBLICATIONS'. Below the banner is a green button labeled 'IMPORT PUBLICATIONS' with a red arrow pointing to it. Below the button is a paragraph of text: 'Use this page to control the publications that will display on your public profile, downloadable record, and in the graphs and metrics here on your dashboard. Learn more about your publications on Publons.'

A continuación escolla “Import from Web of Science”

The screenshot shows the 'Import Publications' page. On the left is the same navigation menu as in the previous screenshot. On the right, there are four import options, each with a dropdown arrow: 'Import from Web of Science (complimentary access for Publons users)', 'Import from ORCID', 'Import by identifier (e.g. title or DOI)', and 'Import by file upload (RIS, CSV, or BIBTEX)'. A red arrow points to the dropdown arrow of the 'Import from Web of Science' option.
